# PSU + Mobile

Having an effective mobile strategy is a necessity. Smartphone usage in business is now the norm and data usage on the move is exploding.

**Choosing the right partner for mobiles is key for your business getting the right solution, the right costs and the right support**

## 10 reasons to choose PSU for Mobile

1

### Independent

We're not tied to a particular network, meaning you can benefit from the best offerings.

2

### Full Network Access

On O2 & Vodafone we can bill directly, change tariffs and handle faults, without you having to deal with the network provider.

3

### Consultative Approach

We find solutions that fit your business needs - cost effective services tailored to your specific requirements.

4

### Dedicated Support

Our focus means you'll receive a higher standard of service than you'd likely get from dealing directly with the networks.

5

### The Right Devices & Tariffs

From the high-end flagship devices to mid-range. From data only to our Unlimited tariffs. UK only to roaming the globe.

6

### Controlled Costs

We can monitor and alert you on usage, so you don't have to worry about the unexpected.

7

### More Security

With our wrap around services like enterprise mobility management, we help safeguard your mobile fleet.

8

### Ready for IoT

Our UK and worldwide data options can work harder for you, wherever your business is on the IoT journey.

9

### Unified Comms Expertise

Integrating your mobiles with your phone system is now vital. Our Mitel experience makes it work.

10

### Integrated IT Veterans

With over 30 years of IT expertise, we know how to get the most out of your mobiles as part of your infrastructure and systems.
